### EDUCATION

2021 – 2025

#### Bachelor's – Computer Science

Université de Montréal

2019 – 2020

#### Certificate – Applied Computer Science

Université de Montréal

2013 – 2014

#### AEC – 3D Modeling for Video Games

Le Campus ADN, Montréal

2010 – 2013

#### DEC – 3D Animation and Computer Graphics

Cégep de Matane, Matane

### SKILLS

#### Frontend

- HTML • CSS • JavaScript
- TypeScript • Vue.js • Nuxt.js
- TailwindCSS • PrimeVue

#### Backend

- Node.js • Bun • Elysia
- PostgreSQL • Drizzle ORM
- Meilisearch • REST API

#### State / Data

- Pinia • TanStack Query • Zod

#### Testing

- Vitest • Playwright • Stryker

#### DevOps

- GitHub Actions • CI/CD

#### Automation

- n8n

### OBJECTIVE

Looking to grow into a role focused on agentic AI and test automation. Designing automated workflows, orchestrating AI agents, and building CI/CD pipelines.

### PROFESSIONAL EXPERIENCE

Jan 2025 – Present

#### Full Stack Developer

Hubelia, Montréal

- Built frontend and backend for 6+ production web applications spanning management, e-commerce, evaluation, and media.
- Set up automated testing and reporting in CI.
- Migrated an application from Nuxt 3 to Nuxt 4.
- Co-designed an internal agentic AI automation platform (research and architecture phase).

Sep 2024 – Dec 2024

#### Full Stack Developer Intern

Hubelia, Montréal

- Reverse-engineered complex calculation and business logic from a legacy Access system.
- Migrated to a modern stack (TypeScript, Nuxt, PostgreSQL).
- Managed complex application state with Pinia across large multi-step forms.
- Built frontend components and backend API routes.
- Joined an active Agile project mid-development.

### EARLIER EXPERIENCE

10 years across industrial and logistics roles (Transport Logi-Pro, Molson Coors, Thomson Tremblay, EDGE Dimension, Ferme St-Élie). Teamwork under pressure, quality control, training new hires.
